Eclipses 1923

There will be four eclipses in 1923, as follows:

I. Partial of the Moon, March 2. Visible as follows in Eastern Standard time. Begins 9:28 p. m. at a point 54° from the Northern point of the Moon towards the East. Middle or greatest eclipse 10:32 p. m. when 33 of the Moon's Northern diameter will be eclipsed. Ends 11:36 p. m., at a point 20° from the Northern point towards the West.

II. Annular of the Sun, March 16-17. Visible in the Southern portions of Africa and South America.

III. Partial of the Moon, August 26, the Moon setting with the eclipse on, and beginning at 4:52 a. m. Eastern Standard time.

IV. Total of the Sun, September 10. Visible as a partial eclipse on the Southern limb throughout the United States except in extreme Southwestern California, where the total phase will be visible, the path of which runs from Tampico, on the Gulf of Mexico to San Diego.

In Southwestern California the Sun will be totally eclipsed at midday for about 3 minutes.

Barometer

A RISING BAROMETER.

A rapid rise indicates unsettled weather.

A gradual rise indicates settled weather.

A rise with dry air and cold increasing in summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

A STEADY BAROMETER.

With dry air and seasonable temperature indicates a continuance of very fine weather.

A FALLING BAROMETER.

A rapid fall indicates stormy weather.

A rapid fall with a westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in summer, and snow in winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

Rules for Computing Interest

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

Four per Cent.—Multiply the principal by the number of days to run, and divide by 90.

Five per Cent.—Multiply by number of days, and divide by 72.

Six per Cent.—Multiply by number of days, and divide by 60.

Seven per Cent.—Multiply by number of days, and divide by 52.

Eight per Cent.—Multiply by number of days, and divide by 45.

Nine per Cent.—Multiply by number of days, and divide by 40.

Ten per Cent.—Multiply by number of days, and divide by 36.

Twelve per Cent.—Multiply by number of days, and divide by 30.

Fifteen per Cent.—Multiply by number of days, and divide by 24.

Eighteen per Cent.—Multiply by number of days, and divide by 20.

Twenty per Cent.—Multiply by number of days, and divide by 18.

Twenty-four per Cent.—Multiply by number of days, and divide by 15.

The Metric System

The Metric System of Weights and Measures has been legalized by act of Congress, July 18, 1896.

METRIC WEIGHTS.—10 milligrams make 1 centigram, 10 centigrams 1 decigram, 10 decigrams 1 gram, 10 grams 1 dekagram, 10 dekagrams 1 hektogram, 10 hektograms 1 kilogram, 1000 kilograms 1 metric ton.

METRIC MEASURES.—(One milliliter equals cubic centimeter.) 10 milliliters make 1 centiliter, 10 centiliters 1 deciliter, 10 deciliters 1 liter, 10 liters 1 dekaliter, 10 dekaliters 1 hektoliter, 10 hektoliters 1 kiloliter.

METRIC LENGTHS.—10 millimeters make 1 centimeter, 10 centimeters 1 decimeter, 10 decimeters 1 meter, 10 meters 1 dekameter, 10 dekameters 1 hektometer, 10 hektometers 1 kilometer.

APPROXIMATE EQUIVALENTS.

A meter is about a yard; a kilo is about 2 pounds; a liter is about a quart; a centimeter is about ½ inch; a metric ton is about same as an ordinary ton; a kilometer is about ¾ mile; a cubic centimeter is about a thimbleful. A nickel five-cent piece of our coinage is a handy key to metric measures and weights. It is two centimeters in diameter and weighs five grams.

PRECISE EQUIVALENTS.

1 acre equals .4047 hectar; 1 bushel, 35.24 liters; 1 centimeter .3937 inch; 1 cubic centimeter, .0610 cubic inch; 1 cubic foot, .0283 cubic meter; 1 cubic inch, 16.39 cubic cent.; 1 cubic meter, 35.31 cubic feet; 1 cubic meter, 1.358 cubic yards; 1 cubic yard, .7645 cubic meter; 1 foot, 30.48 centimeters; 1 gallon, 3.785 liters; 1 grain, .0648 gram; 1 gram, 15.43 grains; 1 hektar, 2.471 acres; 1 inch, 25.40 millimeters; 1 kilogram, 2.20 pounds; 1 kilometer, .6214 mile; 1 liter, .9081 quart (dry); 1 liter, 1.057 quart (liquid); 1 meter, 3.281 feet; 1 mile, 1.609 kilometers; 1 millimeter, .0394 inch; 1 ounce (avd.), .2835 kilograms; 1 millimeter, .0394 inch; 1 ounce (avd.), .2835 kilograms; 1 ounce (Troy) 31.10 grams; 1 peck, 8.809 liters; 1 gram, 1 milligram; 1 pound, .4536 kilogram; 1 quart (dry), 1.105 pints; .4732 liter; 1 pound, .4536 kilogram; 1 quart (dry), 1.105 liters; 1 quart (liquid), .9464 liter; 1 sq. centimeter, .1550 sq. inch; 1 sq. foot, .0929 sq. meter; 1 sq. inch, 6.452 sq. cent.; 1 sq. yard, 1.196 sq. meter; 1 sq. meter, 1.196 sq. yard; 1 sq. meter, 1.196 sq. yard; 1 ton (2,240 lbs.), 1.017 metric ton; 1 ton (metric), 1.102 ton (2,240 lbs.); 1 ton (metric), 2,204.62 ton (2,240 lbs.); 1 yard, .9144 meter.

SMALL CRAFT, STORM AND HURRICANE WARNINGS.

					
Small Craft Warning.	N. E. Winds.	S. E. Winds.	N. W. Winds.	S. W. Winds.	Hurricane.

SMALL CRAFT WARNING.—A red pennant indicates that moderately strong winds are expected.

STORM WARNINGS.—A red flag with a black center indicates a storm of marked violence. The pennants displayed with flags indicate direction of wind—red, easterly; white, westerly; pennant above flag indicates wind from northerly quadrants; below, from southerly quadrants. By night a red light indicates easterly winds, white light below red, westerly winds. Two red flags with black centers indicate approach of tropical hurricanes.

No night small craft or hurricane signals are displayed.

Help in Case of Accidents

DROWNING.—1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after HOURS of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air, and quiet.

SUNSTROKE.—There are two important indications for treatment—reduction of temperature and the use of stimulants. The patient should first be removed to a cooler spot if possible, or at least where shade can be secured. The treatment should be begun at once. The clothing about the neck and body must be either loosened or removed. Cold is particularly indicated in cases where there is great heat of the body, and delirium and convulsive movements are present. This means of reducing the temperature may be applied in the shape of cracked ice about the head and spine, or the use of cold water. If the heat of the body is very great, it may be necessary to wrap the patient in sheets wet with cold water. If there is, besides the great heat, evidence of serious depression, stimulants must be used while the cold is being applied.

HÆMORRHAGE.—The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

FIRE IN A BUILDING.—Crawl on the floor. The clearest air is the lowest in the room. Cover head with woollen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Help in Case of Accidents

BURNS AND SCALDS.—Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives, which should be administered by the medical attendant. Later on the appearances of inflammation and other complications are to be carefully watched for.

SUFFOCATION FROM INHALING ILLUMINATING GAS.—Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

TESTS OF DEATH.—Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain; if alive, it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark.

MAD DOG OR SNAKE-BITE.—Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whisky, brandy, etc.

FIRE IN ONE'S CLOTHING.—*Don't run*—especially not downstairs or out of doors. Roll on carpet, or wrap in woollen rug or blanket. Keep the head down, so as not to inhale flame.

FIRE FROM KEROSENE.—*Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woollen rug, table-cloth, or carpet.

CINDERS IN THE EYE.—Roll soft paper up like a lamp lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the other eye.

FAINTING.—Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

STINGS OF VENOMOUS INSECTS, ETC.—Apply weak ammonia, oil, salt water, or iodine.

LIGHTNING.—Dash cold water over a person struck.

Poisons and Antidotes

FIRST.—Send for a physician.

SECOND.—**INDUCE VOMITING**, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalis, and vice versa.

ACIDS, MINERAL.—Chalk, magnesia (plaster off wall in emergency), solution carbonate of soda, emollient drinks, fixed oils.

ACID, CARBOLIC.—Any soluble sulphate, such as magnesia.

ACID, HYDROCYANIC.—Fresh air and artificial respiration, with cold effusion. Ammonia by inhalation and intravenously in vein of leg.

ACONITE.—Emetics, stimulants, external and internal; keep up external heat, keep flat on back.

ANTIMONY TART.—Vegetable acids, such as tannic acid, catechu.

ARSENIC.—Freshly precipitated hydrated sesquioxide of iron made by adding magnesia to any iron solution.

ATROPIA.—Same as Belladonna.

BELLADONNA.—Emetics—mustard flour in water; give physostigma or pilocarpine; cold to head.

CANTHARIDES.—Emetics, emollient drinks, opiates by mouth and rectum, large draughts of water to flush kidneys.

CHLORINE WATER.—Albumen, white of egg, milk, sour.

CHLOROFORM.—Fresh air, artificial respiration (inclining head down, pull tongue forward), brandy and ammonia intravenously in leg, the **HYPODERMIC** injection of 15 m. tincture of digitalis and 1-60 of a grain of atropine.

COLCHICUM.—Emetics, followed by demulcent drinks. If coma be present brandy, ammonia, coffee. Opium in large dose. Keep up external heat.

CONIUM.—Emetics, followed by stimulants external and internal.

CORROSIVE SUBLIMATE.—Albumen, white of egg (4 gr. sublimite require white of one egg), flour, milk. Equal parts of lime water and milk. Emetics, or evacuate stomach by pump.

Poisons and Antidotes

COPPER SULPH.—Yellow prussiate of potash or soap.

CROTON OIL.—Emetics; wash out stomach, followed by mucilaginous fluids, containing opium.

DIGITALIS.—Recumbent posture after emetics. Emetics and opium; give tincture aconite.

ELATERIUM.—Demulcent drinks, enemata of opium, and external heat.

HYOSCYAMUS.—Stomach pump, emetics, stimulants external and internal, physostigma and pilocarpine.

ILLUMINATING GAS.—Hypodermic injections of nitroglycerin are recommended by Kloman, of Baltimore.

IODINE.—Emetics and demulcent drinks, starch or flour diffused in water, opium and external heat.

LEAD SALTS.—Any soluble sulphate, either magnesia or soda, succeeded by emetics, and afterwards by opium and milk.

LOBELLA.—Stimulants externally and internally; external heat.

MORPHINE.—Same as opium.

NUX VOMICA.—30 grs. of chloral and 60 grs. of bromide of potash. Nitrite of amyl.

OPIUM.—Atropine hypodermically till respirations number 8 per minute. Stomach pump, stimulants, external and internal, brandy and coffee, cold affusion, ammonia to nostrils, galvanic shocks, compelling to move about, artificial respiration, electric brush. Permanganate of Potash.

OXALIC ACID.—Lime, not potash or soda.

PHOSPHORUS.—Sulphate of copper in emetic dose as chemical antidote. No oils. Emetics and purgatives.

POTASH AND SODA SALTS.—Dilute acetic acid, citric acid, lemon juice, fixed oils, demulcents, vinegar.

SILVER NITRATE.—Solution of common salt and demulcent drinks. Emetics.

STRAMONIUM.—Same as Belladonna.

STRYCHNINE.—Same as Nux Vomica.

TOBACCO.—Emetic, stimulants, external and internal, strychnine, external heat.

ZINC SALTS.—Carbonate of soda, emetics, warm demulcent drinks.

Cloudy & misty Epiphany.

At New York -

Went down town by Lexington Ave subway this morning. Had quite a busy day at the bank. Left at about 2 o'clock. Stopped for some theatre tickets then walked to the house. The Judge was out so I took a nap and then went to dine with Niece at the Robinsons - after dinner I watched Niece & Cousin Maime play cards & talked with Cousin Walter. Herbert Hartman came in to see Niece. Came home & read aloud finishing "Neighbors henceforth". Quite good.

Wea. SUN. JAN. 7, 1923 Ther.

Cloudy 1 Sunday after Epiphany.

At N. Y.

Read the paper this morning in Miss Ward's room. Her condition remains very much the same. The Judge & I went to church & stayed to Communion. After church Ritchie Boyd & I walked home with Eleanor Cromwell & Nina Dearth. Ritchie dined with us & then we walked to 26th St. & went to the Robinsons for Niece. She was out & kept us waiting 1 hour (not to the improvement of my temper) She had been with Sig. Smith in his new Ford. Ritchie, N. & I then walked to tea with Flo. Williams & Mr. & Mrs. - Read aloud this evening & wrote a letter to Mother -

4 Held Here In \$100,000 Bond Theft

Robt. Franks Jr. Charged With Receiving Certifi- cates Stolen Last No- vember in Cincinnati

Robt A. Franks jr., of 131 East Sixty-sixth Street, son of the vice-president and treasurer of the Carnegie Foundation, and once connected with Blair & Co., brokers, was arrested last night and taken to Police Headquarters on charges of receiving bonds stolen last November in Cincinnati. The charges were preferred by Assistant District Attorney Harold W. Hastings.

The arrest followed investigation of the thefts amounting to \$100,000 in Cincinnati by detectives of the bomb squad. The investigation brought about the arrest yesterday of three other men also. These men are named as William McAvoy and Hugh and John MacEwan. They are charged with the same offense. Mr. Hastings said last night that Frank's arrest was made because of statements to him by the three.

"Bigger Men" Sought

Mr. Hastings said he was looking for "bigger men" than Franks in connection with the bond theft and with others engineered by a large and influential circle of practitioners.

Franks, who was questioned at the District Attorney's office for three hours, would make no statement to reporters at the time of his arrest, except to say that the apartment in Sixty-sixth Street was his city home and that his father lived at Llewellyn Park, West Orange, N. J., but is now abroad with his mother. The young man said he was not married. The apartment is a sumptuous one.

The name of a fourth man mentioned in the indictment against McAvoy and the two MacEwans is mythical, the District Attorney's office said last night.

Each Held in \$10,000

The three who were arrested yesterday had previously been arrested on suspicion of having in their possession \$22,000 worth of bonds stolen in the Cincinnati robbery. They were held in \$10,000 bail each in the Tombs to await trial. The arrests were made, members of the bomb squad said, when the three sought to sell the securities to E. H. Rollins & Son, brokers, of 43 Exchange Place. The numbers of the bonds were found to correspond with those on the list of securities stolen.

District Attorney Hastings said McAvoy had told him he had handled the bonds, but that he believed them to be "clean" at the time he got them and when he tried to sell them.

Franks a Princeton Alumnus

Franks told William S. Wagner, assistant superintendent of the Pinkerton Bureau, and Detectives Murphy and Barth of the bomb squad, who were instrumental in making the arrests, that he was graduated from Princeton in 1917 and at present is a student of finance and banking. He admitted some of the bonds in question passed through his hands, but police would not say last night how this occurred.

About \$14,000 of the \$22,000 worth of bonds recovered were put on sale, police said, by Anthony Fallaria, a runner for E. H. Rollins & Co., who told them they had been turned over to him by Jack and Hugh MacEwan. Jack MacEwan is manager of the Rutledge Hotel, 163 Lexington Avenue, and his brother is a salesman for a bond firm.

Miss Katharine Duer to Wed Mr. Philip G. Strong

Date of Marriage Is Not Set Be- cause of Youth of En- gaged Couple

Mr. and Mrs. Alexander Duer, of 156 East Seventy-ninth Street, announce the engagement of their daughter, Miss Katharine Alexander Duer, to Philip Grandin Strong, a son of Benjamin Strong, of 470 Park Avenue, by his first wife, a Miss Grandin, who died years ago.

Miss Duer is the niece of the late Beverly Chew Duer and John Duer, and made her debut last winter, but not formally, owing to the death of an aunt. She has a younger sister, Miss Lucie B. Duer. She is a lineal descendant of Miss "Kitty" Stirling and a cousin of Miss Sophie B. Duer. Her mother was formerly Miss Therese Hammond.

Mr. Strong studied at Princeton, but left before graduation to go into business. He is a brother of Benjamin Strong jr. and Miss Katherine Strong and is a half-brother of the little Misses Betty and Barbara Strong, whose mother was Miss Katherine Converse, a daughter of the late E. C. Converse.

No date has been set for the wedding, because the couple are very young.

PRETTY WEDDING AT HOME OF BRIDE

Ceremony Before Colonial
Mantel Banked in Smilax
And Lilies

RECEPTION ON LAWN

A wedding of social importance took place yesterday when Miss Amy Eshleman, daughter of Mrs. B. Frank Eshleman, 215 East Orange street, was wedded to Herbert Button, of Cazenovia, N. Y.

The ceremony was performed in the home of the bride's mother, at 4 o'clock, by Rev. Clifford G. Twombly, D. D., rector of St. James' Episcopal church.

The bride, who was given in marriage by her brother, Frank Mercur Eshleman, of Boston, Mass., was gowned in a Paris creation of white crepe de chine elaborately embroidered in pearls and crystals. Her veil was worn with a bandeau of pearls, crystals and rose point lace. She carried a shower bouquet of Bermuda lillies tied with silver ribbon, intermingled with English ivy.

Miss Bettina Eshleman, niece of Miss Eshleman, and her only attendant, wore a dress of white organdie trimmed with Valenciennes lace and an old-fashioned pink taffeta bonnet. She carried an old-fashioned bouquet of pink roses.

Herbert C. Button, of Cazenovia, attended the bridegroom.

Mrs. B. Frank Eshleman, mother of the bride, wore a Paris gown of black crepe de chine, embroidered in silver, and corsage of orchids. Mrs. David Locher, of Corpus Christi, Texas, a sister of the bride, wore a Paris gown of black net heavily embroidered in jet.

The ceremony took place in the drawing room before an old Colonial white mantel, which was banked in smilax, and profusion of Bermuda lillies. A color scheme of silver and white was carried out with old-fashioned candelabra, and prisms, which were placed at each end of the mantel, with lighted candles.

At each end of the mantel were also placed two Dresden vases filled with Bermuda lillies. Around the mantel and throughout the home were draped tall palms.

Reception on Lawn

Following the ceremony a small reception was held on the lawn which was attended by fifty guests. Tables were set on the lawn.

The out-of-town guests were: Mr. and Mrs. Ulysses Mercur, James Watts Mercur, Mr. and Mrs. John T. Albert, Mrs. William B. Franklin, Baron and Mrs. Nicola Scietto, Mr. and Mrs. James Watts Mercur, Jr., Philadelphia; Sidney Eshleman, New Orleans; Judge and Mrs. Gustav Endlich and Miss Elizabeth Endlich, Reading; Miss Cordelia Button, Cazenovia, N. Y.; Mr. and Mrs. Frank Mercur Eshleman and children, Bettina and Francis, Boston; Herbert C. Button, Cazenovia, N. Y.; Captain and Mrs. James Edward Palmer, Ventnor, N. J.; Mrs. George Rosenmiller, New York; Benjamin Eshleman, Philadelphia, brother of the bride and Mrs. David Locher, Corpus Christi, Texas, sister of the bride; Mrs. A. Robinson McIlvaine, Frances McIlvaine and Herbert McIlvaine, Philadelphia.

After a honeymoon spent in the Adirondacks and Canada, Mr. and Mrs. Button will be at home in Cazenovia, after July 15.
